

DO YOU HAVE A YEAR TO SPARE?

For a one year intern program that will change your life

LIVED THEOLOGY SCHOOL

St Maria of Paris

(Ecumenical Patriarchate)

*Orthodox mission is where the "Church meets the street"
and becomes lived theology, a way of life.*

Lived

*Orthodox mission at St John the Compassionate in Toronto is way of life.
A way of living out the Orthodox faith that can only be understood
By actually living it in a praying Orthodox community.*

Theology

*Theology can become a living experience,
A meeting with God in the other.
Orthodox mission theology is learnt through liturgy
through social service,
through reflective study
through life in community.*

School

*LTS is a different type of school.
We take time to study, to reflect, to learn from the poor and from the liturgy.
When our life is a school we become teachers of theology to each other.*
